

GEAT Department 2023 Spring Semester Seminar

January 24	Robin Tanamachi, Purdue University (virtual) <i>Experiential learning in atmospheric science: Why it works, and how to put it into practice</i>
January 31	Abigail Swann, University of Washington (virtual) <i>Ecosystem-atmosphere interactions</i>
February 7	Athena Eyster, University of Wisconsin-Madison (in-person) <i>Earth Dynamics & Environments</i>
February 14	Kaustubh Thirumalai, University of Arizona (virtual) <i>Paleoclimate</i>
February 21	—
February 28	Kimberly Hill, University of Minnesota (in-person) <i>Structural Geology</i>
March 7	—
March 21	Giuseppe Torri, University of Hawaii (virtual) <i>Cloud physics</i>
March 28	Sinan Akçiz, California State University Fullerton (in-person) <i>Fault tectonics</i>
April 4	Valerie Payre, University of Iowa (in-person) <i>Planetary science</i>
April 11	Miquela Ingalls, Penn State University (in-person) <i>Carbonate Geochemistry</i>
April 18	Tammy Weckwerth, NCAR (in-person) <i>Boundary layer remote sensing and data assimilation</i>
April 25	Armin Sorooshian, University of Arizona (in-person) <i>Atmospheric aerosols</i>
